

Map Makers

Pre and Post Unit Performance Task

Name: _____ Date: _____

Draw a map of your neighborhood. This means the area around your house where you spend most of your time and play.

Please make sure to include your own house. You can decide what important or special places to include.

Teacher Note: You may want to paste these directions onto 15" x 22" paper.

To evaluate student work, look for:

- Point-of-view: is the student drawing a pictorial map, a panoramic view, or an aerial view?
- Map Features: is the student including a legend, compass rose, and drawing items to scale or in relative location to each other?
- Inclusion of Natural Elements: Is the student showing detail and variation in the shape of the land, plants, and other natural features?
