Scavenger Hunt Adjective Worksheet

Adjectives are words that tell more about nouns (person place or things).
- *Adjectives* can tell about what something looks like, smells like, tastes like, feels like and what it could sound like.

Before you go on your scavenger hunt, brainstorm some adjectives that could describe each object that you might come across on your walk.

Example:

Salt Water				
What words could describe how it looks?	What does it smell like?	What does it feel like?	If you could eat it... what do you think it would taste like?	What does it sound like?
Glittery	Fresh	Cold	Salty!	Howling Wind
Glossy		Wet		Crash
Misty				Roar of waves
